Wilsede Scholarship Holders	XXII
Preface	XXV
Acknowledgements	XXIX

Frederick Stohlman Jr.: Memorial Lecture

J. Klein: Introduction for N. A. Mitchison	1
N. A. Mitchison: Repertoire Purging by Medium Concentration Self-Macromolecules is the Major Factor Determining Helper and Suppressor Repertoire Differences. (With 2 Figures)	3
R. C. Gallo: Introduction for P. H. Duesberg	7
P. H. Duesberg, M. Nunn, Nancy Kan, D. Watson, P. H. Seeburg and T. Papas: Are Activated Proto- <i>onc</i> Genes Cancer Genes? (With 4 Figures)	9

New Strategies in Leukemia Diagnostic and Therapy

G. W. Santos: Allogeneic Marrow Transplantation from HLA-Identical Siblings in the Acute Leukemias: Baltimore Experience	31
J. H. Kersey, D. Valleria, N. Ramsay, A. Filipovich, R. Youle, D. Neville, R. Stong, and T. LeBien: Monoclonal Antibodies and Immunotoxins in Bone Marrow Transplantation: Purging Marrow of ALL or GVHD Cells with Preservation of Stem Cells	34
K. G. Blume, S. J. Forman, R. A. Krance, M. Henke, D. O. Findley and L. R. Hill: Bone Marrow Transplantation for Acute Leukemia (With 1 Figure)	39
P. J. Martin, J. A. Hansen, R. Storb, and E. D. Thomas: T Cell Depletion of Donor Marrow for Prevention of Acute Graft-Versus-Host Disease	42

<p>D. S. Rosenthal, S. E. Emerson, J. M. Rapoport, W. C. Moloney and R. I. Handin: Long-Term Survivors of Adult Acute Nonlymphocytic Leukemia: Fact or Fiction? (With 2 Figures)</p> <p>D. Hoelzer, E. Thiel, H. Löffler, H. Bodenstein, T. Büchner, R. Engelhardt, A. Ganser, D. Messerer, H. Rühl, and T. Zwingers: Risk Groups in a Multicenter Pilot Study for Treatment of Acute Lymphoblastic and Acute Undifferentiated Leukemia in Adults</p> <p>K. B. McCredie, H. Kantarjian, M. J. Keating, J. P. Hester, and E. J. Freireich: New Approaches to the Treatment of Chronic Myelogenous Leukemia</p> <p>M. J. Barnett, A. Z. S. Rohatiner, M. A. Richards, J. H. Waxman, T. S. Ganesan, A. Miller, R. Biruls, and T. A. Lister: The Feasibility of Opal/High Dose Ara-C Treatment for Adult Acute Lymphoblastic Leukaemia. (With 1 Figure)</p> <p>S. Castaigne, H. Tilly, F. Sigaux, M. T. Daniel, and L. Degos: Treatment of Leukemia with Low Dose Ara-C: A Study of 159 Cases</p> <p>H. J. Weh, R. Zschaber, A. von Paleske, and D. K. Hossfeld: Treatment of Acute Myeloid Leukemia and Myelodysplastic Syndrome by Low Dose Cytosine Arabinoside</p> <p>J. Bogusławska-Jaworska, J. Pejcz, J. Armata, M. Ochocka, U. Radwańska, R. Rokicka-Milewska, and M. Sroczyńska: The Results of High Risk Acute Lymphoblastic Leukemia and Non-Hodgkin's Lymphoma Total Therapy. (With 5 Figures)</p> <p>J. J. Bosco, R. Cherian, and T. Pang: Adult Acute Lymphoblastic Leukaemia at University Hospital, Malaysia</p> <p>P. Jacobs: The Epipodophyllotoxin VP16-213 in Combination Chemotherapy for Adults with Acute Nonlymphoblastic Leukaemia</p> <p>R. J. Haas, G. Gaedicke, U. B. Graubner, and G. Meyer: Treatment of Acute Lymphoblastic Leukemia in Childhood: A Report for the ALL 77-02 Group. (With 4 Figures)</p> <p>S. B. Murphy, G. V. Dahl, A. T. Look, J. Ochs, M. Abromowitch, C.-H. Pui, W. P. Bowman, J. V. Simone, D. K. Kalwinsky, W. E. Evans, S. George, J. Mirro, D. Williams, L. Dow, and G. Rivera: Recent Results from Total Therapy Study X for Standard and High Risk Acute Lymphoblastic Leukemia in Children: Recognition of New Clinical and Biologic Risk Features</p> <p>J. Ritter, U. Creutzig, H. J. Riehm, W. Brandeis, V. Gerein, G. Prindull, M. Rister, and G. Schellong: Improved Treatment Results in Childhood Acute Myelogenous Leukemia: An Update of the German Cooperative Study AML-BFM-78</p> <p>F. Zintl, H. Malke, and W. Plenert: Clinical Experiences with a Modified BFM Protocol in Childhood Acute Lymphoblastic Leukemia. (With 8 Figures)</p>	<p>44</p> <p>48</p> <p>51</p> <p>53</p> <p>56</p> <p>60</p> <p>63</p> <p>67</p> <p>70</p> <p>75</p> <p>78</p> <p>82</p> <p>84</p>
